

Kyoto Institute of Technology

Academic Fields	School of Science and Technology	Graduate School of Science and Technology	
		Master's Programs	Doctoral Programs
Materials and Life Science	Applied Biology	Applied Biology	Biotechnology
	Biomolecular Engineering	Innovative Materials	Materials Chemistry
	Macromolecular Science and Engineering	Material's Properties Control	
	Chemistry and Materials Technology	Materials Synthesis	
		Functional Chemistry	
Engineering Design	Electronics	Electronics	Electronics
	Information Science	Information Science	Engineering Design
	Mechanical Engineering	Mechanophysics	
		Mechanodesign	
Design Engineering and Management	Design Engineering and Management		
Architecture and Design	Design and Architecture	Design	Design
		Architecture	Architecture
		Kyoto Institute of Technology and Chiang Mai University Joint Master's Degree Program in Architecture	
Fiber Science and Engineering		Advanced Fibro-Science	Advanced Fibro-Science
		Biobased Materials Science	Biobased Materials Science
Arts and Sciences	Languages, mathematics, physics and humanities subjects		

Teaching Staff Organization	
Faculty	Applied Biology
	Materials Science and Engineering
	Molecular Chemistry and Engineering
	Electrical Engineering and Electronics
	Mechanical Engineering
	Information and Human Sciences
	Fiber Science and Engineering
	Design and Architecture
Arts and Sciences	
Institute for the Promotion of University Strategy	
Institute for Foundational Education and Research	

Institute for the Promotion of University Strategy	Strategic Hub	KYOTO Design Lab	
		Center for Top Global University Project	
		Health Sciences Innovation and Promotion Center	Department of Drosophila Genomics and Genetic Resources
		Center for Community Promotion	Department of Bioresource Field Science
		Advanced Insect Research Promotion Center	Department of Insect Biomedical Research
		Advanced Manufacturing and Textile Science Research	
		Research Strategy Promotion Center	Center for Manufacturing Technology
			Center for Fiber and Textile Science
			Future-Applied Conventional Technology Centre
	Global Excellence staff		

- ◆ Center for Project of Education and Research
- Center for Lifetime Prediction
- Center for Green Innovation
- Center for Rubber Science and Technology
- Urban Planing Research Center

Institute for Foundational Education and Research	University Library
	Museum and Archives
	Center for Information Science
	Center for Environmental Science
	Center for Instrumental Analysis
	Isotope Laboratory
	Educational Program Center
	Student Support Center
	Admission Center
	International Center
	Health Care Service Center
	Center for Accessibility and Communication Assistance

Advanced Technology Center
