[Eligibility]

KIT will only accept students who meet the following requirements.

***Students must be enrolled in their home institution for the entire duration of their exchange at KIT.**

***Students must be officially nominated by their home institution. Consult with the coordinator or department in charge at the home institution before proceeding.**

***Students must be studying a field related to a KIT academic program.**

***Students must have language proficiency at or above the levels below.**

This is because undergraduate classes at KIT are conducted only in Japanese and graduate classes and research activities are conducted in English or Japanese (Other languages are not acceptable).

[Undergraduate students who wish to take classes]

JLPT N2 or an equivalent level of Japanese proficiency

[Graduate students, Undergraduate students only conducting research activity and not being required to get credits]

CEFR B2 or an equivalent level of English proficiency or JLPT N2 or an equivalent level of Japanese proficiency

<The above "equivalent" includes the following examples ;>

-Native Japanese/English speakers

-Students who have Japanese proficiency certificate (JLPT, JPT, J.Test, EJU etc.) or English proficiency certificate (TOEIC, TOEFL, IELTS etc.)

-Students who are enrolled in a program/course of study primarily conducted in Japanese or English

-Students who have been issued a certificate of Japanese/English language proficiency from their home institution.

- APPLICATIONS: All of the following documents are required -

[Important Communication about Security Export Control in Japan]

Security Export Control is implemented for the purpose of maintaining peace and safety in Japan as well as in the international community based on the FEFTA (Foreign Exchange and Foreign Trade Act) under international export control regimes. We conduct strict screening before approving technology or accepting researchers/students.

We are obligated to apply to the Ministry of Economy, Trade and Industry (METI) in the event researcher/student acceptance or a technology may infringe on any of the Foreign Exchange and Foreign Trade Law regulations.

For this reason, you may not be able to immediately begin your intended educational and/or research activities if METI does not approve it.

In addition, be aware that if METI fails to approve an application we submit, you may be asked to change the content of your intended education and research, or you may not be able to conduct your education and research activities at KIT.
