授業の目的・概要 Objectives and Outline of the Course	
日	Effectively communicating your ideas to others is not easy. Communication in small groups is more difficult than one-on-one communication or communication by presentation, but it is unavoidable. Small Group Communication (SGC) requires special skills and phrases. This course will help students learn how to communicate effectively in English in small group situations through: - study and use of various common English discussion phrases - discussion techniques of giving an opinion, agreeing and disagreeing, giving suggestions, etc. - participating in and leading discussions/meetings on various topics. The majority of each class time in this 8 week course will be spent in active speaking and discussion in small groups.
